No member of the Committee may serve on the audit committee of more than three public companies, including the Company, unless the Board of Directors has determined that such simultaneous service would not impair the ability of such member to effectively serve on the Committee.

COMMITTEE MEETINGS; SUBCOMMITTEES

The Committee shall meet on a regularly-scheduled basis at least four times per year or more frequently as circumstances dictate. The Committee's meetings shall include, on at least a quarterly basis, an executive session with the independent auditor to provide the opportunity for independent and objective discussion of the Company's financial reporting without any member of senior management present. In addition, the Committee shall meet, on at least a quarterly basis, in executive session with the Company's Vice President of Internal Audit, to provide for independent and objective discussion of the Company's financial reporting and internal controls without senior management being present. The Committee may form, and delegate any of its responsibilities to, a subcommittee comprised solely of one or more members of the Committee. The Committee shall not delegate any of the functions herein provided to be performed by it to management.

RESPONSIBILITIES AND FUNCTIONS

The Committee's role is one of oversight. The Committee's primary responsibility relates to the oversight of the Company's financial reporting and its other responsibilities and functions as stated herein, including risk assessment and risk management, while important in their own right, are ancillary to the accurate and complete presentation of the Company's financial position and prospects. The Company's management is responsible for: (i) preparing the Company's financial statements, (ii) assessing the effectiveness of its internal control over financial reporting, (iii) assuring the Company's compliance with its legal and regulatory obligations, (iv) assessing and monitoring internal and external risks faced by the Company, (v) implementing policies designed to mitigate such risks, and (vi) the adherence by Company personnel with the Company's business policies and codes of conduct. The Company's internal auditor is responsible for assisting the Audit Committee in the discharge of its responsibilities by executing the approved audit plan and reporting the results to the Committee. The Company's independent auditor is responsible for auditing the Company's financial statements and assessing the Company's conclusions as to the effectiveness of the Company's internal control over financial reporting. The Company's management, internal auditor and independent auditor have more knowledge and detailed information about the Company, greater expertise in financial reporting, internal control matters, the legal and regulatory obligations of the Company and the details of the Company's

codes of conduct and business policies, and greater opportunity to analyze financial reporting issues facing the Company than do Committee members. Consequently, in carrying out its oversight responsibilities, the Committee does not provide any expert or special assurance as to the Company's financial statements, internal controls, legal compliance or adherence to its codes of conduct and business policies or any professional certification as to the independent auditor's work. The following functions of the Committee are specified as a guide, with the understanding that the Committee will exercise its judgment in determining the specific activities the Committee may undertake at any time. The Committee's activities may diverge from this guide as appropriate given the circumstances. The Committee is authorized to carry out these and such other functions and responsibilities as are assigned by the Board from time to time and to take any actions reasonably related to the Committee's responsibilities as mandated by this charter.
